Rock Oil has vast motorcycle lubricant expertise, thus ensuring that they are at the forefront of lubrication technology.

With today's modern scooters, lubricants have to work harder than ever to ensure optimum performance and reliability. Rock Oil has succeeded in developing a sophisticated range of products to cater for every scooter application to include all 2 & 4 stroke machines. This pursuit of excellence has resulted in factory approvals by all leading manufacturers.

Using the correct lubricant is essential in ensuring the long term reliability and protection of your engine. Every Rock Oil product is engineered to perform a specific task, assuring you of the highest performance for your own individual requirement.

City 4s fully synthetic 5w40 4 stroke

Performance scooter 4 stroke, City 4s gives you all the advantages of synthetic 4 stroke racing technology, in scooter lubrication.

City 4s offers the ultimate power and protection for today's high performance 4 stroke scooters even under the most severe conditions. It's advanced fully synthetic formulation gives rapid circulation from cold start with complete protection at high operating temperatures of all high performance 4 stroke scooters. It is probably the most advanced 4 stroke scooter oil currently available. It is suitable for all modern high performance 4 stroke applications and meets or exceeds the following specifications:

[JASO MA API SL ACEA A3 SAE 5w40](#)

City 4 semi synthetic 10w40 4 stroke

The increased performance together with higher operating temperatures of a modern 4 stroke scooter engine has put more demands on the engine lubricant.

City 4 scooter semi-synthetic has been developed specifically for scooters to give maximum protection, with rapid circulation at cold start and complete protection at high temperatures even in extreme conditions.

It is suitable for all performance 4 stroke applications and meets or exceeds the following specifications:

[JASO MA API SL ACEA A3 SAE 10w40](#)

City 2s fully synthetic 2 stroke

Performance scooter 2 stroke for injection systems.

Easy to use City 2s gives you all the advantages of the latest synthetic 2 stroke racing technology in scooter lubrication.

City 2s fully synthetic offers the ultimate protection for today's high performance 2 stroke scooters even under the most arduous conditions. The low ash formula offers major benefits including low smoke and high resistance to harmful pre-ignition, a severe problem in larger or more powerful scooter engines. It is suitable for all modern high performance 2 stroke applications and meets or exceeds the following specifications:

[JASO FC ISO GD](#)

City 2 semi synthetic 2 stroke

Semi-synthetic scooter 2 stroke for injection systems

City 2 scooter provides superb protection for all 2 stroke scooter engines.

The advanced semi-synthetic, low ash formulation results in super-clean burning with minimum carbon build-up while releasing maximum power. Superior additives stop deposit build-up and corrosion in the exhaust system caused by town riding.

It is suitable for all performance 2 stroke applications and meets or exceeds the following specifications:
